Open Doors International is looking for a talented, global

SOFTWARE DEVELOPER

0.9 – 1 FTE

Are you talented in software development, and are you looking to contribute to our international ministry? We are offering an exceptional opportunity to apply your knowledge and skills within Open Doors International. We are looking for a service-oriented Software Developer to play a key role in the project lifecycle. You support the Manager Solution Development and work with a team of motivated professionals who are passionate about serving the Church.

Open Doors is an international, interdenominational organization that supports Christians who are persecuted for their faith. The teams and colleagues in the Open Doors development and field offices are provided with a wide range of services such as IT, DME Program Management, Finance, Advocacy, Global Research and HR with a focus on service.

Our global IT team of 25 members is allocated around the world and supports about 1,500 users worldwide and is comprised of the following teams:
• Service Delivery
• Value Delivery
• Software Development
• Infrastructure

YOUR KEY RESPONSIBILITIES
- Supporting the Manager Solution Development in coordinating the workload;
- Coaching the junior team members in developing, testing and implementing existing or new functionalities, based on the sprint backlog priorities;
- Analyzing user requirements, devising solutions and presenting them to the Solutions Development Team;
- Advising stakeholders and IT management and giving solution directions;
- Collaborating with management, departments and customers to identify end-user requirements and specifications;
- Building solutions and related documentation making the delivered features supportable by the Support Team and other team members;
- Testing and implementing programs and applications;
- Together with the team ensuring the quality and security of the product you're working on.

YOUR PROFILE
- A committed Christian with a passion for the Persecuted Church;
- Analytical, practical and creative;
- Convincing, entrepreneurial, and a team player;
- Preferably a Bachelor's degree, or equivalent professional and intellectual ability, and several years relevant work experience;
- Advanced knowledge and experience with C#, ASP.NET, SQL Server, Angular, Typescript, Azure;
- Preferably knowledge of MS Power Platform, D365 and Docker/Kubernetes;

Open Doors

- Able to independently research new technologies and experience with software design and development in a test-driven environment;
- Familiarity with Agile development methodologies;
- Fluent in English.

OUR OFFER

Working at Open Doors International means actively serving the worldwide persecuted Church. We offer a benchmarked salary, depending on the country of living.

This is a versatile position in an international, dynamic, and professional team. As a global organization, we value and invest in personal and professional growth, offer flexible working hours and are used to combining working from home and the office.
